Trails

What to Expect:
Blue-rated trails include rollable features such as tabletop jumps, berms, rollable drops, and Northshore wooden features.

Suitable for:
These trails are suitable for beginners, novices, and intermediates, and they also make excellent warm-up trails before a session.

Bike Required:
Any bike is suitable for use on these trails; however, we do not recommend road, gravel, or Dutch-style bikes.

Suggested Skill Level:
You should be able to control your speed sufficiently, come to a stop, and turn the bike in the direction of the trails.

What to Expect:
Red-rated trails include Northshore wooden features, gap jumps, and drops. Some of these features may be unavoidable.

Suitable for:
These trails are suitable for advanced riders only.

Bike Required:
Any modern mountain bike, BMX, or e-bike is suitable for these trails. We recommend bikes be equipped with at least one brake.

Suggested Skill Level:
You should be able to control your bike sufficiently, ride with level pedals, and feel comfortable getting air over jumps and clearing drops over 2 ft high.

What to Expect:
Black-rated trails include Northshore wooden features, gap jumps, and drops. These features are unavoidable!

Suitable for:
These trails are suitable for expert riders only.

Bike Required:
Any modern mountain bike, BMX, or e-bike is suitable for these trails. We recommend bikes be equipped with at least one brake.

Suggested Skill Level:
You should be able to control your bike expertly and confidently jump gap features, including drops, dirt, and wooden jumps.

What to Expect:
Pro-rated trails include wooden and dirt lipped gap jumps over 7ft, drops, step downs, cannons and transfers. These features are unavoidable!

Suitable for:
These trails are suitable for elite level riders only!

Bike Required:
Modern mountain bike with or without suspension, BMX, or e-bike is suitable.

Suggested Skill Level:
Must be able to handle the speed and size of the jumps.
